

## Building Air Conditioner & Heat Pump Unit Accessory

### RAF Description & Benefits

Bebco Model RAF Return Air Filters are designed to consistently increase efficiency throughout their life cycle and have a MERV 8 rating. Among chief benefits, the media weaving process is carefully controlled and an antimicrobial coating is applied to support optimal indoor air quality. Our filters are also mechanically efficient, self-supporting and do not rely upon metal wire. Best of all, they present low initial resistance, are environmentally friendly, incorporating no dyes or metal, and they are completely safe for landfill disposal or incineration. Consider this important accessory as a way to ensure your unit performs at optimal levels at all times, while maintaining a clean, healthy and safe work environment!

Having spare filters on-hand permits clean filters to be installed quickly, even during unit operation, allowing Bebco Air Conditioner and Heat Pump Units to continue operating efficiently. Model RAF Return Air Filters are ideal for a strong and active preventive maintenance program.

### Material Specifications

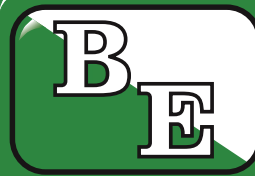

Construction:	Commercial Adhesive Bonding
Frame Material:	Die-Cut 28 Pt. Beverage Board
Filter Media:	Self-Supporting Pleated DuraFlex® with Antimicrobial Properties
Initial Resistance:	.23" to .38" w.g. (inches of water)
MERV Rating:	8 (per ASHRAE 52.2)
Media (filter) Thickness:	1, 2 or 4 Inches (see notes below)
Disposal:	Environmentally Safe - No Dies No Metal & Fully Incinerable

### Model Number Matrix

Typical Model Number:	<b>RAF - XX - XX - X</b>
Series Model Number	RAF - Return Air Filter
Filter Height	XX - Dimension in Inches
Filter Width	XX - Dimension in Inches
Filter Thickness	X - 1, 2 or 4 Inches

#### IMPORTANT NOTES:

1. Unit Serial Numbers may be requested to acquire these filters if not ordered simultaneously with Units, to ensure proper fit.
2. Filter size and thickness vary for all Bebco Model WAC & WHP Units. Consult a Bebco Salesperson or examine your unit to determine your needs.
3. Ask a Bebco Sales Associate about our replacement filter program to ensure essential routine service and keep room air fresh!
